Oriental, NC Vacations & Event Management

Our mission at Down East Destinations is to help you experience the true adventure of life's simple pleasures, full of learning, wrapped in fun and incredible enough to create the memories of a life time. With many years of experience, we can manage all the details of your trip or event, leaving you free to simply maximize its potential..

We are located in Orienta, the sailing capital of North Carolina. Believe it or not, there are more sailboats here than there are people. Located on the Neuse River at a point where it stretches six miles across, it's the widest river in the country and meets the Atlantic in a vast estuary.

Corporate Event Management & Teambuilding

Whether you are kicking off a new product or leveraging the diversity of your staff to become a more effective team with interactive teambuilding and learning programs, we can provide tools of corporate event planning, teambuilding, strategic planning, change management, systems thinking, stress reduction, facilitation and or conflict resolution to help you and your staff plan and experience the benefits of immediate application of new concepts and processes in the work place.

Special Events

Down East Destinations special events are specialized to our client's wishes and can vary in size, location and theme. They can range from an elegant, themed dinner party for four prepared in a private location or unique venue by a famous chef or an elaborate corporate team building or incentive program to an extravagant holiday gathering for hundreds.
